## CAUTIONS:

The Board suggests using a two-people team when taking photos for Foundation publications. A clerk should accompany the photographer in order to manage the permission forms and answer questions about intent for use while the photographer concentrates on taking pictures.

The Board prefers that pictures taken for Foundation purposes are of MG and MRC volunteers and recommends avoiding photos of anyone under the age of 18. Family members of volunteers may be included but a permission must be secured for each person in the photo. The form for anyone under 18 must be signed by an MG or MRC who is a parent, grandparent or legal caregiver.

When the Foundation plans to photograph MG or MRC Program events, the photographer will notify Program Staff two weeks prior in order to assure smooth communication and not inhibit operations.
